PROFESSIONAL SUMMARY

Mechatronics Engineering student with a strong self-taught background in Full-Stack Web Development. Skilled in building complex applications and bridging hardware concepts with modern web interfaces.

EDUCATION

Yildiz Technical University <i>B.Sc. in Mechatronics Engineering</i>	Expected 2026 <i>Istanbul</i>
<ul style="list-style-type: none">Relevant Coursework: Algorithms, Database Management, Control Systems.	
42 Istanbul <i>Software Engineering Curriculum (C & Algorithms)</i>	2020 – 2022 <i>Istanbul</i>
<ul style="list-style-type: none">Completed the intensive 'Piscine' selection month and Core Curriculum.Focused on low-level programming (C), memory management, and Unix systems.Developed strong algorithmic thinking and peer-to-peer learning skills.	

TECHNICAL SKILLS

- Web Development:** JavaScript (ES6+), TypeScript, React, Next.js, Redux, HTML5/CSS3, Tailwind, SASS
- Backend & Cloud:** Node.js, REST APIs, Headless CMS (Sanity/WordPress), Supabase (Basic)
- Tools & DevOps:** Git/GitHub, Linux (Shell), n8n (Automation), Figma, VS Code
- Languages:** Russian (Native), Turkish (C2 - Professional), English (B2)

PROFESSIONAL EXPERIENCE

Lenta Marine <i>Software Engineering Intern</i>	2022 – 2023
<ul style="list-style-type: none">Developed a ground control station for low-latency video transmission using GStreamer.Containerized applications using Docker for consistent deployment across hardware.Implemented real-time video processing using OpenCV.	
Orinium (Startup Project) <i>Co-Founder & Technical Lead</i>	2024 – Present
<ul style="list-style-type: none">Leading a student-driven R&D initiative to develop autonomous UGV robots.Coordinating a cross-functional team (mechanics, software, electronics).Secured institutional support from incubation centers (Teknopark/BTM).	

KEY PROJECTS

Military Gear E-Commerce	<i>Next.js, Supabase, Tailwind</i>
<ul style="list-style-type: none">Built a multi-language store with a custom backend using Supabase.Implemented global CDN strategies for optimized image delivery.	
SaaS QR Menu System	<i>Headless WordPress, React, GraphQL</i>
<ul style="list-style-type: none">Decoupled frontend from backend using Headless WordPress for a dynamic menu app.Created an Admin Dashboard for real-time item management.Integrated i18n support for 15 languages.	
AI Video Generator	<i>Python, YOLO, Whisper</i>
<ul style="list-style-type: none">Automated 'Reels' creation using YOLO for face tracking and Whisper for captions.engineered a pipeline to process raw video into engaging short-form content.
